

I am sending this comment to express my distress that LPFM stations may take precedence over our current FM translator service. I am specifically upset about the possibility of losing our local K-LOVE station.

Whatever I am doing, from being stuck in traffic or working around the house, etc., listening to K-LOVE helps me get through the day (my dentist even has this station playing to calm his patients). K-LOVE provides support and encouragement to our local Christian community and great enjoyment to my friends and myself. The loss of our K-LOVE station would be discouraging and alienating to say the least.

Please reconsider doing anything to put K-LOVE off the air. There are so many negative messages bombarding people everyday, that we need good influences such as K-LOVE to help offset them. K-LOVE is a primary source of Christian encouragement, news of Christian events, and other Christian information.

FCC, PLEASE leave our current FM translator service in operation, allowing K-LOVE to stay on the air and continue sending out a message of love, hope, and Christian faith!!!
